Bos

Bo Staffs: is simply a long stick that was originally used to carry buckets of water and food-it was known as ten bin. The bo is round smooth and solid. A standard bo is a tapering stick of wood 1 1/4 in. the middle and 3/4 in.at each end. The tapering gives the bo both flexibility and strength as well as making the center easy to find. Bo Staff Styles :There are several different styles and sizes of Bo Staffs.

Nunchakus

Nunchaku - Originally this was a wooden flail used to crush rice and consisted of two unequal lengths of hardwood connected by a cord made of horse hair. The modern Nunchaku have octagonal (hakkakukei) or round (maru-gata) wooden handles of equal length connected by a length of rope or chain. A vine (kanda) can also be used as a longer connector, in order to bind an opponent's head and hands together in an "Okinawan Handcuff."
